# 1 Overview and philosophy for motivation

Living in today's world is getting more and more complex. There are laws made by humans which you have to obey. Additionally, mother nature has their ever-lasting rules, overwriting all human rules, and which we should obey to keep the environment healthy for future mankind. Thus, people may have the need to get information about this complex system and tools to make this understandable.

However, mankind has produced a lot of tools to manage this complexity.

## **2 Basics**

### **2.1 Symbols**

### **2.2 Relations**

### **2.3 Taxonomy**

### **2.4 Importing graphs**

#### **2.4.1 graphviz dot**

### **2.5 Exporting graphs**

#### **2.5.1 graphviz dot**

#### **2.5.2 SVG**

### **2.6 Reporting graphs**

### **2.7 Expansion - do more with your graph**

#### **2.7.1 Mindmap**

#### **2.7.2 Flow**

## **3 Usage**

**3.1 LISP at commandline**

**3.2 LISP via TCP-Socket**

**3.3 REST-API**

**3.4 Webbrowser-client**

## **4 Specific domains**
